

PROFESSIONAL EXPERIENCE

Tech & AI Apps Reporter

Bloomberg | New York | June 2023 – present

- Write original and market-moving articles for financial and general audiences on the Bloomberg Terminal, website and Businessweek magazine, covering consumer and AI apps, autonomous vehicles, online marketplaces (Uber, Waymo, Lyft, DoorDash, Airbnb)
- Produce articles under deadline from breaking news, corporate earnings and executive interviews to high-impact investigations, one of which prompted regulatory action by the Federal Trade Commission and the NYC Taxi and Limousine Commission
- Reverse-engineer mobile applications to identify unreported product features and competitive strategy

News Automation Editor & US Elections Project Manager

Bloomberg | New York | Feb. 2022 – June 2023

- Built and deployed semi-automated publishing tools to beat competitors on US midterms race call alerts using Python, Excel VBA, API calls; Designed and conducted >10 election monitoring simulations with 20 headline editors globally, achieving 100% headline accuracy on election night
- Presented technical insights on US election coverage at 2023 NICAR data journalism conference

Greater China Breaking News Editor & Bureau Reporter

Bloomberg | Hong Kong | Aug. 2019 – Feb. 2022

- One of three breaking news editors publishing market-moving headlines and stories under real-time pressure from English and Chinese-language exchange filings, financial reports, policy documents, local and state media reports, live briefings and social media during a politically volatile period
- Beat competition on breaking news across macro and company-level developments such as indebted Chinese developers, political and economic policy shifts and the Covid-19 pandemic
- Produced original analysis on Hong Kong's anti-government protests and national security law by developing contacts across activist groups, government and enforcement bodies, contributing to award-winning team coverage
- Built original dataset tracking Hong Kong political arrests that yielded exclusive reporting on the impact of China's crackdown

News Intern and Rotational Reporter

Bloomberg | Hong Kong | June 2018 – Aug. 2019

- Beat all other news organizations in publishing China's first retaliatory tariff list in English and built an exclusive dataset quantifying the economic impact on US-China trade flows
- Completed rotations across Greater China economy and government, Asia Tech and Business, Asia equities and China credit teams
